

MUHAMMAD HAZIM SHAH ARMAN

FULL STACK DEVELOPER

hazimshah69@gmail.com · 0183208134 · Bandar Baru Bangi, Selangor, MY ·
Portfolio: <https://portfolio-production-bb6c.up.railway.app/>

SUMMARY OF QUALIFICATIONS

Full Stack Developer with hands-on experience designing, building, and deploying web applications in production environments. Proficient in Laravel, PHP, JavaScript, MySQL, and modern front-end frameworks. Delivered features including role-based access control (RBAC), multilingual support, and payment gateway integrations for real-world SaaS and enterprise systems. Holds a Bachelor of Software Engineering (Multimedia System Development) from Universiti Kebangsaan Malaysia. Collaborative, detail-oriented, and comfortable working across the full development lifecycle — from database schema design to UI/UX implementation and version-controlled deployment.

SKILLS

Hard Skills: PHP · Laravel · JavaScript · HTML5 · CSS3 · Tailwind CSS · Bootstrap · MySQL · Firebase Realtime Database · Microsoft Access · REST APIs · CRUD Development · RBAC · Payment Gateway Integration · Multilingual (i18n) · Database Schema Design · Java · C# · Unity (C#)

Tools & IDEs: Git · GitHub · Visual Studio Code · Android Studio · Eclipse · Visual Studio · Unity Editor · Blender · Adobe Animate

Soft Skills: Attention to Detail · Cross-functional Collaboration · Self-directed Learning · Problem Solving · Deadline Management · Client Communication

Transferable Skills: Agile Workflows · Code Review · Technical Documentation · System Deployment · Stakeholder Coordination · UI/UX Awareness

PROFESSIONAL EXPERIENCE

IT & Sales Consultant — Full Stack Developer | **Hijrah Group** | Jan 2026 – Mar 2026

Key Responsibilities

- Developed and maintained full stack web applications using Laravel (PHP), integrating front-end, back-end, and MySQL database layers.
- Implemented advanced application features including role-based access control (RBAC), ensuring secure, tiered user permissions across the system.
- Integrated third-party payment gateways, enabling seamless online transactions within the platform.
- Added multilingual (i18n) support to expand product accessibility for a diverse user base.
- Improved UI/UX across key user flows, translating stakeholder requirements into polished, functional interfaces.
- Collaborated with the development team via GitHub, managing branches, pull requests, and code reviews.

Key Achievements

- Delivered RBAC, multilingual, and payment gateway features within a condensed 3-month consulting engagement, directly expanding platform capabilities for end clients.
- Contributed UI/UX improvements that reduced user friction and enhanced the overall product experience for a live SaaS platform.

IT Intern — Full Stack Developer | **Hijrah Group** | Aug 2025 – Jan 2026

Key Responsibilities

- Built and enhanced web-based management systems using Laravel and MySQL, covering both front-end and back-end development.
- Implemented front-end features using HTML, CSS, JavaScript, and Bootstrap, delivering responsive, accessible interfaces.
- Designed relational database schemas and implemented CRUD operations to support core business workflows.
- Collaborated with the engineering team using Git/GitHub for version control and code collaboration.
- Deployed systems to production environments, supporting real users and live operations.

Key Achievements

- Successfully delivered multiple system enhancements from development through to live deployment during the 6-month internship.
- Gained practical, end-to-end full stack experience across database design, API development, front-end implementation, and production deployment.

EDUCATION

Bachelor of Software Engineering (Multimedia System Development)

Universiti Kebangsaan Malaysia (UKM) · Bangi, Selangor | Aug 2022 – 2026

Foundation in Computer Science

Kolej Matrikulasi Selangor | Aug 2020 – Jun 2022 | CGPA: 3.54 / 4.00

LANGUAGES

Bahasa Malaysia — Native · English — Professional Working Proficiency
